

Portswigger Lab: SQL Injection UNION Attack Write-Up

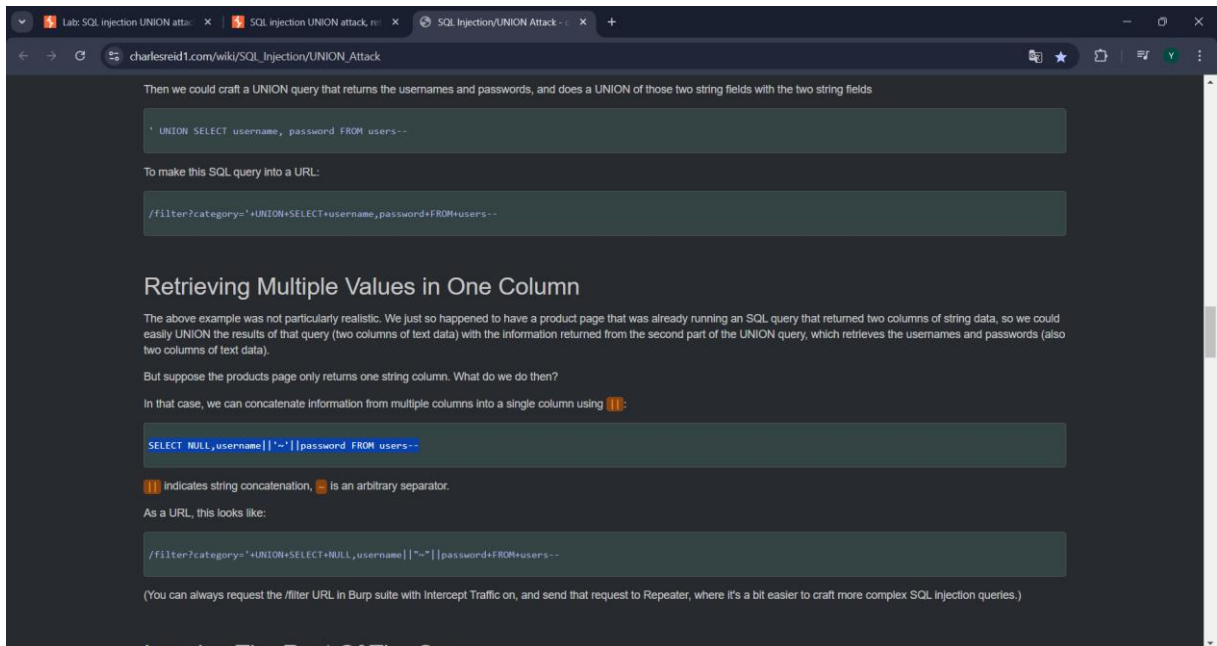

İlk adımda categoryler kısmına bakarken injection olduğunu farkettim ve bunu (',\') kullanarak doğruladım.

Sonrasında bulduğum bir siteden union sorguları denedim işaretli sorgu işe yaradı.

Bu sorgu çalışınca username ve password sorgusu aradım ve aynı sitede bi sorgu buldum bu sorguyu çalıştırınca tüm kullanıcıların kullancıadı ve şifresi ekrana geldi.

Burda sadece 'union ekledim başına böylelikle aşağıdaki çıktıyı aldım.

Web Security Academy

SQL injection UNION attack, retrieving multiple values in a single column
